MESSAGES

It gives me great pleasure to invite you to the 9th International Academic Conference in Otolaryngology, Rhinology and Laryngology (IAC 2015) in Kuala Lumpur. IAC 2015 is the first IAC to be organised in the South East Asia region. I am most happy to note that this conference has generated much interest amongst colleagues in this region and see this as a platform for East meets West. Participants will have the opportunity to participate in one of the four satellite pre-conference events that will be held in Jakarta, Manila, Ho Chi Minh City and Langkawi Island, Malaysia.

To keep the aspiration and tradition of the IAC alive and to ensure a high quality academic programme, we have formed two international committees for the 9th IAC. I am most grateful to Prof Dr Jan Veldman and Prof Dr Steven O'Leary who are chairing the International Advisory Committee and the International Scientific Committee respectively. The theme of IAC 2015 is "Future Direction in ORL Research : Re-engineer, Regenerate and Translate". I am sure we will have an exciting programme that provides you with the opportunity to gather and discuss the latest findings and future directions in ORL research.

Malaysia and its neighbouring countries welcome you to visit their many interesting touristic places in an exciting multicultural, modern and traditional environment. I look forward to your participation.

Welcome to Kuala Lumpur.

Prof Dato' Dr Lokman Saim
Organising Chairman

"As founder of these conferences 30 years ago, I hope that basic scientists and clinicians will meet and inspire each other in an academic environment in Malaysia, in 2015. Up to now, these events took place in Europe, USA, Japan, Korea and Australia. Let East meet West again."

Prof Dr Jan Veldman
