Courses

3rd Recklinghausen Course on Auricular Reconstruction

**March 27 - 28,
2015**

in Cooperation with:

Department of
Oto-Rhino-Laryngology,
Head and Neck Surgery,
Prosper-Hospital,
Recklinghausen / Germany

Organization:
Dr. R. Magritz

||SURGICAL PLASTIC / ENT SURGERY ||SURGICAL PLASTIC

Greetings

Dear Colleagues!

The construction of an auricle from autologous tissue is highly complex and demanding for the reconstructive surgeon. Depending on the characteristics of the underlying malformation or deformity, there are various surgical techniques available, which in specialized hands, promise regularly achievable attractive and stable results.

We have specialized in reconstructive and esthetic auricular surgery for many years and have reconstructed more than one thousand malformed or amputated auricles up to now.

After a very successful second course we will present an overview on our clinical experience, let you observe our surgery and help you individually during our special carving and sculpturing workshop at this international course on auricular surgery. Beside our concepts and techniques in major auricular surgery we will also present a practical guide in the management of more minor and moderate abnormalities.

We hope you will enjoy the course, go home with new experiences and be able to use them in your daily work for your patients benefit right away.

Prof. Dr. Dr. Ralf Siegart

Dr. Ralph Magritz

Agenda

We reserve the right to change the agenda due to the clinical situation.

Friday - March 27, 2015

- 08.00 am Registration
- 08.30 am Welcome
- 08.45 am Presentation of the patients for Live-Surgery
- 09.00 am Live-Surgery with video transmission
- 01.30 pm Lunch**
- 03.00 pm Classification of auricular malformations
